Chapter 1 by intellikat

The only rule is that you must copy and paste text from other sources online to create a complete story in eight chapters. NO ORIGINAL WRITING. You have to steal it.

Vote on the best/funniest/most original chapter which develops the story.

What would you do if Earth didn't have enough men?

Would you take a chance and leave the only world you knew behind?

This is the decision Faith Reid faces. Placing all her hope in a new government program, she seizes the opportunity that offers a chance for the women of Earth to find love among the stars, on a world beyond the one they know.

Chapter 3 by Selena Raynee

After signing a standard cohabitation contract, he for the second time and she for the third, [HE] and [SHE] honeymooned on the Costa Antarctica, where for eight glorious days they bathed in the solar warmth beamed down from UN Power Station One.

Chapter 4 by Rinat Menyashev

Life on earth can only go on so long. If man doesn't look to new horizons (just as he has always done in the past) humankind one day will come to an end. Space exploration is no more extravagant than Magellan, Cook and Columbus's expeditions were in the middle ages.

Chapter 5 by intellikat

Marriage is this beautiful, amazing, loving, caring union... until it's not. Sure, some marriages last and last, but some crash and burn, leaving behind a huge mess and intense heartbreak -- no matter if you are the one who asked for a divorce or not. They say marriage takes a lot of work, and it does, work that can be really rewarding. But divorce takes even more work, especially when there are kids involved. And that kind of work doesn't come with many rewards.

Chapter 6 by Hayley

Real men don't date single mothers.

Why? Because dating a single mother is just a HEADACHE. Dealing with these women is a recipe for drama, drama, and more drama. Seriously, these women are just not worth the grief. They're stranded in 18+ years of Hell and they're looking for someone to be company to join them in their misery.

Chapter 7 by intellikat

Suddenly, Knucklepants rocked up, sporting a herringbone blazer and chewing on a Slim Jim.
